

SKIOLD DIGITAL APP

Mobile devices running both iOS and Android are supported. iOS devices must be running iOS 9 or newer while Android devices must be running Android version 4.1 or newer.

Hardware requirements - smartphone:

Apple iPhone 6s or newer with minimum 2GB memory. "Samsung Galaxy S7, LG G5 or similar/newer Android phones with minimum 4GB memory.

Hardware requirements - tablet:

Apple iPad Air 2, iPad 2017 or newer with minimum 2 GB memory, Samsung Tab 2, Samsung Tab Active 2, Lenovo Yoga Tablet 3 Pro or similar/newer models with minimum 4GB memory.

All mobile devices must be connected to the internet either via mobile broadband or wifi. Some functionality in SKIOLD Digital, such as the "Adjust Feed" module, can be used while the device is offline, but an internet connection is required to synchronize changes to the production system (e.g. DistriWin). An internet connection with a minimum speed of 1Mbit up and download is recommended.
