

## SPRINKLER JET FOGGER

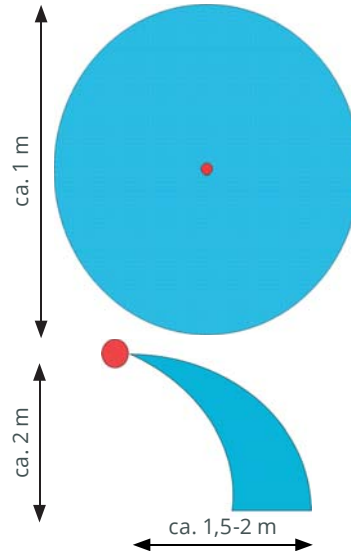

140426004010

SKIOLD MAKES THE DIFFERENCE!

Spray when vertically mounted (approx. 3 bar water pressure)

Spray when horizontally mounted (approx. 3 bar water pressure)

- Nozzle for sprinkling and cooling
- Amount of water at 3 bar: approx. 5.8 L/hour
- Water drop size approx. 80  $\mu$
- Built-in anti-drip valve
- Mounted vertically for sprinkling
- Mounted horizontally above wall inlets for cooling  
- provides 98% evaporation.
- Seal is included
- Fitting hole in pipe:  $\varnothing$ 11mm
- NB! Requires independant piping, as the sprinkler socket system differs from other SKIOLD sprinklers
