

SKIOLD DAMAS VIBAM

SKIOLD MAKES THE DIFFERENCE!

SKIOLD DAMAS VIBAM UNIVERSAL CLEANING MACHINE

Versatile, economic and durable, the Vibam is the perfect cleaning machine for many different types of grains and heavy seeds.

SKIOLD Vibam universal cleaning machine

The Vibam is a universal cleaning machine designed to clean a wide variety of grains and seeds quickly and precisely. Vibam offers competitive value combined with high capacity and easy operation.

As standard, the Vibam is provided with both pre-suction and aftersuction units.

The layout of the machine makes it easy and quick to change from precleaning to fine cleaning – a feature which makes day-to-day operations far more efficient.

The Vibam is based on tried-and-tested technology and is in operation in installations all over the world.

Your direct benefits
